An act to add Part 1.85 (commencing with Section 443) to Division 1 of the Health and Safety Code, relating to end of life.

LEGISLATIVE COUNSEL’S DIGEST

SB 128, as amended, Wolk. End of life.

Existing law authorizes an adult to give an individual health care instruction and to appoint an attorney to make health care decisions for that individual in the event of his or her incapacity pursuant to a power of attorney for health care.

This bill would enact the End of Life Option Act authorizing an adult who meets certain qualifications, and who has been determined by his or her attending physician to be suffering from a terminal disease, as defined, to make a request for a drug prescribed pursuant to these
provisions for the purpose of ending his or her life. The bill would establish the procedures for making these requests. The bill would also establish the forms to request an aid-in-dying drug and, under specified circumstances, an interpreter declaration to be signed subject to penalty of perjury, thereby creating a crime and imposing state-mandated local program. This bill would require specified information to be documented in the individual’s medical record, including, among other things, all oral and written requests for an aid-in-dying drug.

This bill would prohibit a provision in a contract, will, or other agreement from being conditioned upon or affected by a person making or rescinding a request for the above-described drug. The bill would prohibit the sale, procurement, or issuance of any life, health, or accident insurance or annuity policy, health care service plan, contract, or health benefit plan, or the rate charged for any policy or plan contract, from being conditioned upon or affected by the request. The bill would prohibit an insurance carrier from providing any information in communications made to an individual about the availability of an aid-in-dying drug absent a request by the individual, or the individual’s designee. The bill would also prohibit any communication from containing both the denial of treatment and information as to the availability of aid-in-dying drug coverage.

This bill would provide immunity from civil, criminal, administrative, employment, or contractual liability or professional disciplinary action for participating in good faith compliance with the act, and would specify that the immunities and prohibitions on sanctions of a health care provider are solely reserved for conduct provided for by the bill. The bill would make participation in activities authorized pursuant to its provisions voluntary, and would make health care providers immune from liability for refusing to participate in activities authorized pursuant to its provisions. The bill would authorize a health care provider to prohibit its employees, independent contractors, or other persons or entities, including other health care providers, from participating in activities under this act while on the premises owned or under the management or direct control of that prohibiting health care provider, or while acting within the course and scope of any employment by, or contract with, the prohibiting health care provider.

This bill would make it a felony to knowingly alter or forge a request for drugs to end an individual’s life without his or her authorization or
to conceal or destroy a withdrawal or rescission of a request for a drug, if it is done with the intent or effect of causing the individual’s death. The bill would make it a felony to knowingly coerce or exert undue influence on an individual to request a drug for the purpose of ending his or her life or to destroy a withdrawal or rescission of a request. By creating a new crime, the bill would impose a state-mandated local program. The bill would provide that nothing in its provisions is to be construed to authorize ending a patient’s life by lethal injection, mercy killing, or active euthanasia, and would provide that action taken in accordance with the act shall not constitute, among other things, suicide or homicide.

This bill would require the State Public Health Officer to adopt regulations establishing additional reporting requirements for physicians and pharmacists to determine the use of, and compliance with, the act, and would require the State Public Health Officer to annually review a sample of certain records and the State Department of Public Health to make a statistical report of the information collected.

Existing constitutional provisions require that a statute that limits the right of access to the meetings of public bodies or the writings of public officials and agencies be adopted with findings demonstrating the interest protected by the limitation and the need for protecting that interest.

This bill would make legislative findings to that effect.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The people of the State of California do enact as follows:

SECTION 1. Part 1.85 (commencing with Section 443) is added to Division 1 of the Health and Safety Code, to read:

443.5. (a) Before prescribing an aid-in-dying drug, the attending physician shall do all of the following:

(A) (i) Whether the requesting adult has the capacity to make medical decisions.

(3) If a health care provider is unable or unwilling to carry out a qualified individual’s request under this part and the qualified individual transfers care to a new health care provider, the individual may request a copy of his or her medical records pursuant to law.

443.15. (a) Subject to subdivision (b), notwithstanding any other law, a health care provider may prohibit its employees, independent contractors, or other persons or entities, including other health care providers, from participating in activities under this part while on premises owned or under the management or direct control of that prohibiting health care provider or while acting within the course and scope of any employment by, or contract with, the prohibiting health care provider.
(b) A health care provider that elects to prohibit its employees, independent contractors, or other persons or entities, including health care providers, from participating in activities under this part, as described in subdivision (a), shall first give notice of the policy prohibiting participation under this part to the individual or entity. A health care provider that fails to provide notice to an individual or entity in compliance with this subdivision shall not be entitled to enforce such a policy against that individual or entity.

(c) Subject to compliance with subdivision (b), the prohibiting health care provider may take action, including, but not limited to, the following, as applicable, against any individual or entity that violates this policy:

(1) Loss of privileges, loss of membership, or other action authorized by the bylaws or rules and regulations of the medical staff.

(2) Suspension, loss of employment, or other action authorized by the policies and practices of the prohibiting health care provider.

(3) Termination of any lease or other contract between the prohibiting health care provider and the individual or entity that violates the policy.

SEC. 2. The Legislature finds and declares that Section 1 of this act, which adds Section 443.18 to the Health and Safety Code, imposes a limitation on the public’s right of access to the meetings of public bodies or the writings of public officials and agencies within the meaning of Section 3 of Article I of the California Constitution. Pursuant to that constitutional provision, the Legislature makes the following findings to demonstrate the interest protected by this limitation and the need for protecting that interest:

(a) Any limitation to public access to personally identifiable patient data collected pursuant to Section 443.18 of the Health and Safety Code as proposed to be added by this act is necessary to protect the privacy rights of the patient and his or her family.

(b) The interests in protecting the privacy rights of the patient and his or her family in this situation strongly outweigh the public interest in having access to personally identifiable data relating to services.

(c) The statistical report to be made available to the public pursuant to subdivision (c) of Section 443.18 of the Health and Safety Code is sufficient to satisfy the public’s right to access.

SEC. 3. The provisions of this part are severable. If any provision of this part or its application is held invalid, that invalidity shall not affect other provisions or applications that can be given effect without the invalid provision or application.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within
the meaning of Section 6 of Article XIII B of the California Constitution.
